JTPL
TEXTILE AUDIT AND INSPECTION SYSTEM

Transform Your Textile Business With Our Cutting-edge Solution

**Designed in Claris FileMaker,
A Subsidiary of Apple Incorporated**

DO YOU FACE THESE PROBLEMS?

- Manual data entry consuming valuable time
- Risk of errors and duplication in efforts
- Lack of real-time visibility into production stages
- Difficulty in tracking auditor tasks and assignments
- Challenging quality assurance during production
- Size specification deviations leading to rejections
- Inefficient handling of surprise factory visits

JTPL TEXTILE AUDIT AND INSPECTION SYSTEM IS YOUR SOLUTION

Error reduction through digital accuracy

Comprehensive audit coverage across all stages

Detailed reporting on all activities

Cost-saving paperless operations

Reduced reliance on manpower

Elimination of duplication of work

What Our Clients Say?

Our business of apparel sourcing defies workflow digitization due to the number of variables inherent to the business. Most existing solutions were unwieldy and inelegant, endless scrolling or copious paper. Filemaker in Jintech's hands was like the fabled Jin that fulfilled our every wish, and the output were elegant concise reports that said everything and more.
